FR - Les luminaires encastrés ne doivent en aucune manière être recouverts de matériaux isolants ou assimilés.
UK - Recessed luminaires should under no circumstances be covered with insulation material or other similar materials.
DE - Einbauspots dürfen unter keinen Umständen mit Isoliermaterial oder ähnlichem abgedeckt werden.
NL - Inbouwarmaturen mogen onder geen enkele voorwaarde bedekt worden met isolatiemateriaal of gelijkaardig materiaal.
IT - Le apparecchiature d'illuminazione da incasso non devono essere coperte con materiale isolante o similare.
ES - Las lámparas empotradas no deben ser cubiertas con aislante o material similar bajo ninguna circunstancia.
SE - Inbyggnadsspets får absolut inte täckas över med isolering eller liknande.
FI - Upotettuja valaisimia ei tule missään olosuhteissa peittää eristeellä tai vastaavalla aineella.
PL - Bezwzględny zakaz zakrywania oprawy wewnętrznej materiałem izolującym lub innym posiadającym podobną charakterystykę.
PT - Projectores de encastrar em nenhuma circunstância devem ser tapados com isolamento ou material similar.

FR - Le câble ou cordon flexible externe de ce luminaire ne peut être remplacé. Si le cordon est endommagé, le luminaire doit être détruit.
UK - The external flexible cable or cord of this luminaire cannot be replaced. If the cord is damaged, the luminaire shall be destroyed.
DE - Das externe flexible Kabel dieser Leuchte kann nicht ersetzt werden. Wenn das Kabel beschädigt ist, muss die Leuchte entsorgt werden.
NL - De externe flexibele kabel of het snoer van deze armatuur kan niet worden vervangen. Indien het snoer beschadigd is, is de armatuur niet meer bruikbaar.
IT - Il filo o il cavo esterno flessibile di questo sistema di illuminazione non può essere sostituito. Se il cavo è danneggiato il sistema di illuminazione deve essere distrutto.
ES - El cable flexible externo de esta lámpara no se puede reemplazar. Si el cable está dañado, la lámpara deberá desecharse.
SE - Den yttre böjliga kabeln eller sladden till denna belysning kan inte bytas ut. Om kabeln eller sladden skadas skall belysningen förstöras.
FI - Valaisimen ulkoista joustavaa johtoa ei voi vaihtaa. Jos johto on vioittunut, valaisin on hävitettävä.
PL - zewnętrzny giętki przewód tej oprawy oświetleniowej nie podlega wymianie. W przypadku uszkodzenia tego przewodu oprawę należy zutylizować.
PT - o cabo flexível externo ou o fio deste candeeiro não pode ser substituído. Se o fio estiver danificado, o candeeiro terá de ser destruído.

The light source in the luminaire is not replaceable; when the light source reaches its end of life the whole luminaire shall be replaced

RISK OF FIRE - Building insulation must not cover this luminaire.

HCB = 450mm, MIC = 450mm, SCB = 1337mm, SCI = 1337mm

HCB (Height Clearance to Building) Minimum distance as specified between the top of the recessed Luci and any building element above it.

MIC (Minimum Insulation Clearance) Minimum distance between the top of the recessed Luci and the building insulation above it.

SCB (Side Clearance to Building element) Minimum distance between the side of the recessed Luci and any building element.

SCI (Side Clearance to Insulation) Minimum clearance between the recessed Luci and any building insulation.

New Zealand additional warning:

This luminaire is not suitable for installation in locations where thermal insulation is present, or may reasonably be expected to be installed in the future, or where there is a likelihood of other combustible material, E.G. leaves or vermin debris, etc. collecting on or around the luminaire. It is not suitable for domestic installations or installation in residential areas of non-domestic installations (Residential institutions, hotels, boarding houses, hospitals, accommodation houses, motels, hostels and the like)
